FROM SOLO PIANO TO PLAYING WITH A BAND

Elegant, stylish and packed full of highlights, the new Yamaha DGX-670 provides musicians of all levels with a multi-purpose playing experience. The DGX-670 has been completely redesigned with a sophisticated aesthetic reminiscent of classic pianos. Another new feature is Bluetooth® Audio connectivity, making the streaming of wireless audio quick and easy. This portable grand piano DGX-670 comes with 630 authentic sounding voices, including the CFX Grand piano, organs, strings, drums, and more. Jam to 263 accompaniment styles, covering a wide

range of genres from big band to R&B, rock and dance with new features like Simple Style, Adaptive Style or the Unison&Accent Function. The new user interface with its 4.3 inch colour TFT display control comes with such highlights as the innovative control button for effortless access to numerous features. This, together with Graded Hammer Standard (GHS) Keyboard and Virtual Resonance Modeling (VRM) makes the DGX-670 the right choice for all those looking for next-level portable piano technology and sound.
