YAMAHA
Make Waves

PSR-A5000
PRODUCT INFORMATION

Make your sound iconic.
Perform and produce with an ultimate gear designed specially for oriental players.

FEATURES

Iconic Oriental Instruments

Most of important oriental instruments have been newly sampled with more attention to detail than ever before. They feature multiple dynamic layers, various new playing Styles and were mixed down in stereo. We provide Revo! SFX kits with Wave Cycling technology. Super Articulation! technology is applied to control the different articulations. Voice content is conveniently categorized for easy access.

New Portamento

Newly added Crossfade Portamento with velocity and time related parameters. Transition speed and velocity of following notes are editable, allowing smooth, expressive transitions between successive notes.

Istanbul Strings

Istanbul Strings are one of the most popular strings section in Turkey. Their sound has been recorded innumerable times and can be found on many current music productions, not only in Turkey but also on international records. PSR-A5000 offers Istanbul Strings samples for the first time in Arranger workstation.

Drums and Percussion

Expanded drum kit functionality allows you to play 128 mapped instruments from a single kit.
Great care has been taken with drum mapping to provide an optimized, intuitive layout for oriental finger drumming on a keyboard. Thanks to newly added key-off notes, drums and percussion Voices sound very natural and make performance and programming easier. Revo! SFX kits provide more natural drum rolls and enhanced expressiveness.

User Interface

Scale Tune buttons offer easy access during live performances. Individual note pitches can be easily modified and stored as your own new scales to Scale Tune Memories.
Assign your favorite function/parameter to Assignable buttons, Live Control knobs, Joystick, Foot Pedals and Home shortcuts.
FSB Keyboard offers remarkable playability thanks to its heavier initial key resistance and greater key travel and refined keyboard structure.
The 7-inch touch display and new graphic user interface provide for instinctive control over the instrument's powerful features.
FEATURES

New Styles

210 new oriental Styles with richer sound dynamics and more power than ever before. Choose Styles from a variety of genres, such as Khaleeji (36 Styles) Shami (35 Styles), Masri (15 Styles), Maghrebi (50 Styles), Persian (43 Styles), and Turkish (31 Styles). Style Section Time Signatures let you use a range of time signatures within a single Style, which means that you can combine different musical parts.

With the Style Section Reset function, you can rewind the rhythm of the Style to beat 1 immediately. This is also helpful when you need to quickly synchronize your performance on stage.

Style content is categorized to be convenient for players of oriental music.

Chord Looper

Chord Looper lets you record a chord sequence and play it back, freeing your left hand from playing chords and providing new ways to enhance your performance. Since the chords play back in a loop, you don't need to repeat the chord pattern manually anymore, which lets you focus on your performance and other operations.

Sub Output

PSR-A5000 features two sub line-out connections that you can use to adapt your sound to various situations. Try routing bass through a separate subwoofer for a fuller, more powerful bottom end, or send parts and drum instruments to an external console to shape your sound further.
